Tools & Technologies

- Databases Management:** MySQL, PostgreSQL
- Version Control:** Git, GitHub
- E-commerce Platforms:** PrestaShop, Shopify
- Project Tools:** Jira, Trello
- Core Competencies:** OOP, MVC Architecture, Agile, Debugging, Performance Optimization

Work Experience

Junior PHP Developer

February 2024 – March 2026

Volenday (Makati, Manila)

- Reduced manual sales reporting time by 50% by building automated PHP workflows, improving overall data accuracy.
- Developed multiple custom PrestaShop modules include an Audit Trail for real-time security monitoring, a Recently Viewed Products tracker, and a form-driven product recommendation engine, filling platform gaps and improving security and user experience.
- Expanded a Shopify translation module to support multilingual content for non-native sections, streamlining international content management.
- Built responsive UI components using HTML, CSS, and JavaScript; performed system upgrades, patch management, and regression testing to improve cross-device usability and minimize production incidents.
- Collaborated in Agile and Scrum environments, contributing to sprint planning, backlog refinement, and consistent on-time delivery of production-ready features.

Web Developer Intern

May 2023 - August 2023

QPAX Traffic Systems Inc. (Makati, Manila)

- Developed in house Asset Management System that tracks assets provided per company department.
- Developed frontend components using Vue.js/Nuxt.js, ensuring responsive design.
- Implemented backend features in Laravel including authentication, validation, and workflow logic.
- Designed relational database schemas and optimized queries to improve data retrieval efficiency.
- Integrated REST APIs using Axios to enable seamless frontend-backend communication.

Education

Polytechnic University of the Philippines – San Pedro Campus

October 2023

Bachelor of Science in Information Technology
