PROFESSIONAL SUMMARY

PHP Developer with 2+ years of professional experience building custom features, automated reporting tools, and REST API integrations for live e-commerce platforms. Skilled in maintaining legacy systems, managing product listings and storefront customization, and shipping new functionality across Shopify, PrestaShop, and WordPress. Work includes custom PrestaShop modules, a one-click PHP sales reporting tool that replaced manual spreadsheet work, and Shopify storefront extensions.

TECHNICAL SKILLS

Backend: PHP, Laravel, REST API Design & Integration, OOP, MVC Architecture
Frontend: Vue.js, React.js, JavaScript (ES6+), jQuery, HTML5, CSS3, Bootstrap
Database: MySQL, PostgreSQL, Supabase
Platform & CMS: PrestaShop (Module Development/Admin), Shopify (Liquid / storefront), WordPress
Tools & Practices: Git / GitHub, Agile/Scrum, Jira, Trello, SEO, Docker Desktop

WORK EXPERIENCE

PHP Developer

Volenday | Makati, Manila | February 2024 - March 2026

- Developed custom platform features include an Audit Trail system, a Recently Viewed Products tracker, and a product recommendation engine to improve platform reliability.
- Built and maintained REST API integrations connecting a legacy e-commerce system to new services and extended a multilingual Shopify app to support non-native storefront sections.
- Built a one-click PHP export feature that consolidated backend sales data into a single CSV/view report, replacing manual spreadsheet work and cutting report generation time by 50%. Prepared post-campaign performance reports covering sales results, voucher redemption rates, and traffic metrics.
- Built campaign landing pages and promotional flows on Shopify using Liquid theme templates, set up discount vouchers and flash sale mechanics, and coordinated updates with the marketing calendar to meet launch deadlines.
- Managed and maintained product listings across live Shopify and PrestaShop storefronts, including descriptions, pricing, collections, and inventory data, with regular audits for content accuracy, image quality, and stock status.
- Monitored order status, stock availability, and fulfillment accuracy across platforms, coordinating with relevant teams to resolve listing and inventory discrepancies.
- Downloaded, organized, and uploaded brand imagery across the Shopify storefront, ensuring assets met visual standards and retailer requirements.
- Performed on-page SEO across Shopify and WordPress, covering meta tag reviews, alt-tag optimization, robots.txt maintenance, and semantic HTML corrections.
- Wrote responsive UI components and conducted testing on new features and system upgrades before production releases.
- Participated in Agile/Scrum ceremonies including sprint planning and backlog refinement, collaborating with cross-functional teams to deliver consistent, on-schedule releases.

Web Developer Intern

QPAX Traffic Systems Inc. | Makati, Manila | May 2023 - August 2023

- Built an end-to-end in-house Asset Management System using Laravel (backend) and Vue.js/Nuxt.js (frontend) to track and manage department assets across the organization
- Designed relational database schemas, wrote and optimized MySQL queries, and integrated REST APIs via Axios to connect frontend components with backend services.
- Implemented Laravel authentication, validation logic, and business rules; developed reusable Vue.js components to support a clean, maintainable codebase.

PROJECTS

Student Information System

Laravel REST API, Vue 3 SPA, MySQL

- Full-stack SIS with a Laravel backend exposing a REST API and a Vue 3 SPA frontend that covers student records, enrollment workflows, and academic data management.

Movie Lookup

React, OMDB API

- React SPA consuming the OMDB API with dynamic search, paginated results, and detail views with clean component architecture and responsive UI.

EDUCATION

Bachelor of Science in Information Technology

Polytechnic University of the Philippines - San Pedro Campus | October 2023
